

C3 BOL Scanning Tool™

Reduce tedious manual steps to email customers daily Bill of Ladings. Streamline and automate process saving your organization hours per month.

Maximize your Oracle Investment

- Quick and Accurate Batch BOL Scanning
- Reduced Data Entry Errors
- Email BOL to customer based on pre-setup email for account
- Ability to download scanned BOL from APEX and/or Oracle order
- Flexible Exception Handling
- Form flexibility
- Quick Implementation

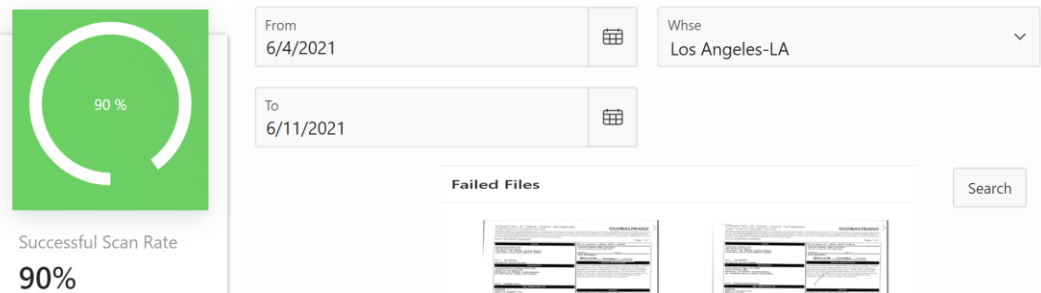

Overview

The C3 BOL Scanning Tool™ offers an efficient and easy to use Oracle solution that allows printed Bill of Lading documents to be scanned in batch, emailed to your customers and attached to customer account in Oracle Application Express (APEX) portal and/or Oracle sales order.

This is achieved by a real time scanning algorithm that identifies key fields and text which seamlessly integrates into Oracle's Database. The C3 BOL Scanning Tool™ provides an accurate and reliable solution for automating the time-consuming task of sending your BOL documents to customers.

Key Features

- Quick and Accurate Bill of Lading Scanning
 - Scan BOLs in batch
 - Tool analyzes scanned documents to identify customer associated to document
 - Customer's email address is then automatically pulled from Oracle
 - Customer's BOLs for day are automatically emailed to customer and attached to sales order in Oracle
- Reduced Data Entry Errors - No need to manually type emails as pulled from pre-setup emails for customer in Oracle
- Flexible Exception Handling
 - Scanned BOL are stored in APEX
 - If BOL could not be emailed to customer for some reason, then issues are flagged in APEX and business can link Oracle customer who should receive the BOL and trigger the email being sent to that customer
- Form Flexibility
 - C3 BOL Scanning Tool™ is a template APEX product. It will be configured to meet your EBS install during implementation and can be customized with other features that you desire. For example, other fields on the Bill of Lading document such as a pro number, shipping dates, freight rates/classifications, and consigner/consignee addresses could be scanned and linked to information your Oracle database
- No additional Oracle licensing needed
- An easy to use and interactive user interface using Oracle APEX
