C3 IS – Item Information Screen™

Does your Purchasing department waste time digging for information on inventory items that aren't available on the screens they use most?

How many steps does it take your Sales Manager to find the customer history and pricing of an item?

Tired of logging into one area, gathering one little piece of the pie, then logging off and logging in to a different organization for another piece?

Overview

C3 Item Information Screen consolidates multiple views from your E-Business Suite applications. Inventory data from multiple areas and multiple responsibilities are now in one, organized, tabbed, easy to read window. Finding information in one place saves time and significantly reduces the frustration caused from the tedious task of logging off to change responsibilities and then back again.
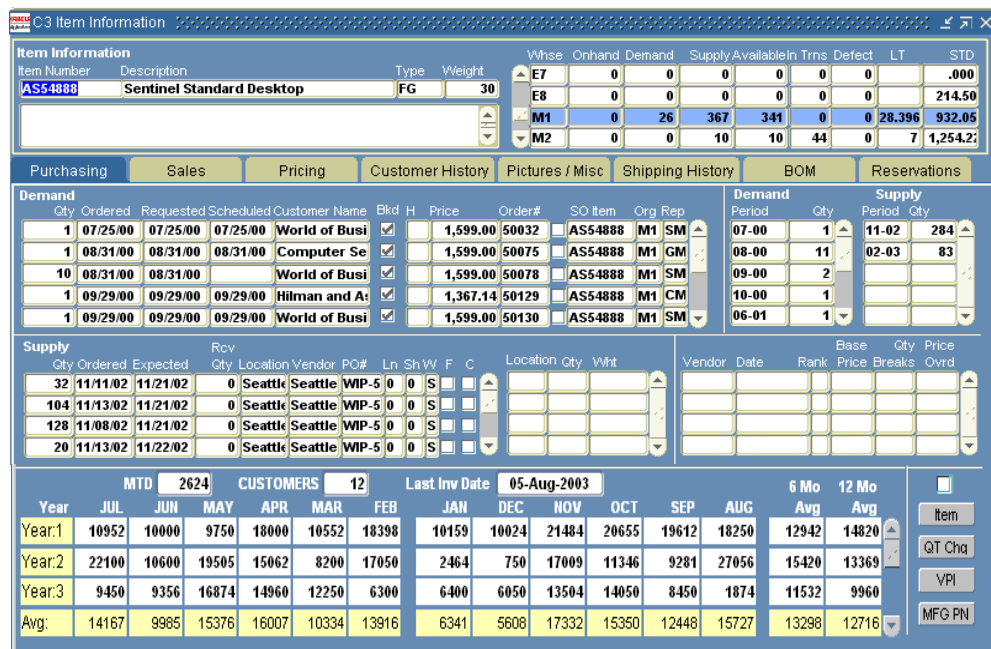

Tools that help you stay competitive and grow your business.

- Reduce costs
- Increase productivity
- Improve decision making
- Works within E-Business Suite inventory modules
- Adds new functionality to existing system
- Improve return on EBS investment
- Rapid to deploy and easily configurable

Clear, Concise, Convenient

Item Info Tabs Include

- Purchasing
- Sales
- Pricing
- Customer History
- Shipping History
- Bill of Materials
- Reservations
- Pictures / Misc data

C3 BUSINESS SOLUTIONS

View information from multiple EBS forms with a single query

A clear view of inventory items using a single query, executed with a few keystrokes, to access all of the data needed to support business process activities. Supply chain, order entry and materials management staff can view all the data they need to make informed business decisions. Simply tab from window to window within a single form using this powerful tool.

In today's fast moving environment, reporting and analysis connects users to the business. C3 Business Solutions now gives you information all in one place, with the necessary level of detail, to help you gain a clear understanding of day-to-day operations and trends.

C3 Item Info Screen is the intelligent way to view your inventory data.

No programming requirements or delays.

Have the information you need, when you need it.
